

I Financially support k-love along with the many other listeners in the country. We listen for exactly the reason they stand for, positive, encouraging music and inspiration. I'm sure for many out there, including me, K-love is an easy way to the Lord. For some, it might be the only way. Bringing hope and compassion to people, is important to keep up moral and values, especially in the state our lives are becoming. K-love offers this in so many ways. You are able to hear across the country others testimony of how the Lord has affected their lives and strengthened or blessed them, or how they needed prayer for a bad situation, and then called back to say the prayer support changed their lives. Everyone who listens can take encouragement and comfort in the realization that, their not alone, others are overcoming the same problems by turning them over to a loving, understanding, and gracious Lord who will never leave us stranded. I strongly feel removing K-love from the airwaves will be taking away that connection and hope for a better life the listeners all over the country have together. Please keep it on the air. Thank You
